The Manual includes specifications for multi-level autorack construction, certification, and specifications for component parts such as end doors, securement systems, bridge plates and related equipment.

Section N - Multi Level Manual for Motor Vehicles DP204G

Founded in 1934, AAR is the world's leading railroad policy, research, standard setting, and technology organization that focuses on the safety and productivity of the U.S. freight rail industry. AAR Full members include the major freight railroads in the United States, Canada and Mexico, as well as Amtrak.

The Association of American Railroads (AAR)

These gages were developed by Winchester Industries, Inc. at the request of Mr. Larry Davis of the AAR and submitted to the Truck Manufacturers Engineering Committee. The TMEC accepted and provided comments on the gages. The Winchester Industries, Inc. gage drawings contain all the TMEC comments as well as all specifications from M-214.
