4. DRAVYAGUNA VIGYAN (Materia Medica & Pharmacology)

Dravyaguna (द्रव्यगुणविज्ञान, "pharmacology"), the Ayurvedic science of medicine in its all aspects, uses rasa (taste) of the substance as the primary tool to assess the pharmacological behavior of any substance. There are five concepts of the substance, namely: rasa (taste), guna (properties), vīrya (potency),

Dravyaguna, Dravyaguna, Dravya-guna: 4 definitions

Pharmacology is the study of different drugs, their mechanism of action, effects and side effects. Therefore it is indeed one of the most important subject for medical students. Because without a good knowledge of drugs, you cannot treat diseases and your knowledge of medicine is of no use. Therefore you must consult a good pharma book to have ...
