(PDF) Citefactor Journal Impact Factors List for 2014

Later today (June 18, 2015), the 2014 edition of the Journal Citation Report (JCR) will be released, listing citation performance metrics for 11,149 journals. While the JCR calculates many different citation-based metrics, most editors and publishers will be chiefly interested in just one single metric—the Journal Impact Factor (JIF). The JIF measures, for any given year, the citation performance of journal articles in their second and third year of publication.
