ENA's Clinical Practice Guidelines (CPGs) are evidence-based documents that facilitate the application of current evidence into everyday emergency nursing practice. CPGs contain recommendations based on a systematic review and critical analysis of the literature about a clinical question. CPGs serve to positively impact patient care in emergency nursing by bridging the gap between practice and currently available evidence.

Clinical Practice Guidelines - Emergency Nurses Association

The FNP practices in the context of community, with broad knowledge, sensitivity and awareness of the specific needs of people from diverse populations and cultural backgrounds. Family nurse practitioners practice primarily in ambulatory care settings.
