Pathfinder - Shelter, Fire, Water

Fire Shelter Storage Bunker FireNado is a secret underground storage space with a solid steel hatch for individuals to protect their valuables from natural disasters or thieves. This shelter is not designed for human use, so it will not include an NBC Air Filtration system or beds.

Fire Shelters & Underground Bunkers

The lean-to shelter is easy to make and roomy. It doesn't trap body heat as well as a completely enclosed shelter. However, the wall of the shelter also acts as a fire reflector. If you make a fire in front of the shelter, the heat will bounce off the wall and keep you warm.

How To Build A Survival Shelter: 11 Simple Designs

Tie the remaining two corners down toward the ground. Use more cord and a less steep angle for open wings and better ventilation. Tie the last corners down sharply for the best weatherproofing. Place a few rocks or log chunks under the tarp by the first tie downs to create deeper basins to catch water.
